**Sermon Discussion Questions: Luke 1:39-56**

What stood out to you from this sermon and the sermon text?

What is something you're longing for? How might God be at work in your heart to help you long for that in a way that you could possibly receive it or not receive it, and still have joy?

How has following Jesus upended your life and yet still given you joy? Are there any ways in which God may be further upending your life to accomplish his joyful purposes in the world?

What is a way that we can be working toward God's justice and mercy together?

How can we be praying for one another as a group?
